

FÜKÖH, L.:

REPORT ON THE 9TH MEETING OF THE HUNGARIAN MALACOLOGISTS (1984)  
BESZÁMOLÓ A IX. MAGYAR MALAKOLÓGUSTALÁLKOZÓRÓL (1984)

Following the traditions, the 9th Meeting of the Hungarian Malacologists was held in Eger, July 26-29, 1984. The natural history section of the Dobó I. Museum, Eger, was the host. Our choice in favour of Eger is justified by the fact that there is a large mollusc material deposited at the museum. The pre-Quaternary mollusc collection of F. LEGÁNYI is outstanding, and the Quaternary, mainly Holocene, collection is also significant and steadily increasing.

Participants: K. BABA (Szeged), J. BOTKA (Barcs), P. BUJPÁL (Székesfehérvár), T. DOMOKOS (Békéscsaba), I. FÜRJES (Budapest), L. FÜKÖH (Eger), É. KISS (Budapest), E. KROLOPP (Budapest), G. MAJOROS (Budapest), L. MERÉNYI (Budapest), L. NÉMETH (Budapest), L. PARÁSZKA (Bicske), M. PÁRDY (Kunhegyes), GY. PERJÉSI (Budapest), I. PINTÉR (Keszthely), L. PINTÉR (Budapest), GY. RADÓCZ (Budapest), T. RAYMAN (Pilisszentlászló), R. SUARA (Budapest), P. SÜMEGI (Debrecen), M. SZEKERES (Szeged), T. SZILI KOVÁCS (Budapest), L. SZÖRÉNYI (Sopron), A. VANCSIK (Hatvan), A. VARGA (Gyöngyös) and six family members.

PROGRAM OF THE MEETING:

- July 26: Assembly commemorating the 100th birthday of FERENC LEGÁNYI.  
 Speakeres: TIBOR KECSKEMÉTI  
 LÁSZLÓ KORDOS  
 MÁRTA SZAKÁLY  
 „The hermit of Bükk”, video-show  
 Wreathing the grave of F. LEGÁNYI
- July 27: M. SZEKERES: Isolated occurrences of *Alopi* in the Southern Carpathian Mountains  
 K. BABA: On the collecting techniques used in ecological and biogeographical studies  
 I. PINTÉR: A preliminary report on the results of malacofaunistical studies in Hungary until 1984  
 E. KROLOPP: The Pleistocene mollusc fauna of the travertine layers at Eger  
 L. FÜKÖH: The biogeographical evaluation of Holocene faunas  
 É. KISS and L. PINTÉR: Clausiliid snails of Hungary  
 L. PINTÉR: Problems in the system and nomenclature of the Hungarian molluscs.  
 In the evening: slide-show (L. PINTÉR)
- July 28: Collecting trip to the Gyepes-valley at Járdánháza  
 In the evening: slide-show (GY. RADÓCZ)
- July 29: sightseeing tour in Eger

The fourth volume of „Malakológiai Tájékoztató” came out just before the meeting. It contains seven papers, a commemoration and two book reviews. Another publication is a reprinted selection from the museum diaries of F. LEGÁNYI. Each participant obtained a terracotta plaquette, designed by A. CSINTALAN and L. KAMRÁS, showing the imprint of *Chlamys opercularis hevesensis*.

The last day we decided that the next meeting will be held in Sopron in 1985.
